

ANDROENERGEN™

Megadose CoQ10 for male fertility*
Dietary Supplement

FOR MEN ONLY

DESCRIPTION: ANDROENERGEN™ is a nutritional supplement of megadose coenzyme Q10 (CoQ10), developed to enhance male fertility through healthy sperm*. Each soft gel is white in color and opaque, and contains 333 mg of CoQ10, more than three times as much CoQ10 as most other CoQ10 products.

ANDROENERGEN™ is provided in the form of oil-suspended soft gel for better absorption.* Developed in collaboration with leading researchers of CoQ10 and fertility, every batch undergoes a rigorous 3-step quality assurance process, including independent laboratory testing for potency.

Supplement Facts	
Serving Size 1 Soft Gel	
	Amount per serving
Coenzyme Q-10	333 mg †
†Daily Value (DV) not established.	

OTHER/INACTIVE INGREDIENTS: Medium chain triglycerides, gelatin, glycerin, soy lecithin, titanium dioxide, beeswax.

WHAT IS COQ10?: CoQ10 is a vitamin-like substance found throughout the body. CoQ10 levels are reported to decline with age in both men and women. CoQ10 plays two important role in the body: in cellular metabolism and in protecting cells from damage*.

CoQ10 plays an important role in cellular metabolism, including that of sperm cells*. CoQ10 transports both electrons and protons into the mitochondria, a tiny structure within cells that provide energy to the cells. CoQ10 helps mitochondria maintain their membrane potential, as well as drive synthesis of ATP, a molecule within the cell that acts like a rechargeable battery that supplies energy to the cell.

CoQ10 also belongs to a family of molecules called antioxidants. CoQ10's other function in the body relates to its classification as an antioxidant*. As men and women age, DNAs within the cells, as well as DNAs of the mitochondria, accumulate damages from oxidative stress. Studies have suggested that CoQ10 may protect both the cells and the mitochondria from this oxidative damage*.

*THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT OR CURE ANY DISEASE.

POTENTIAL BENEFITS: Studies have suggested that CoQ10 supplementation may enhance male fertility in men through healthy sperm motility (movements of sperm) and high concentration of sperm in semen*.

SAFETY: CoQ10 is considered safe for most adults when taken by the mouth. Children should not take ANDROENERGEN™ without medical supervision.

KEEP OUT OF REACH OF CHILDREN.

In case of accidental overdose, call a physician or poison control immediately.

POTENTIAL SIDE EFFECTS: Reported side effects of CoQ10 includes upset stomach, loss of appetite, nausea, vomiting and diarrhea. It can cause allergic skin rashes in some people.

CoQ10 may lower blood pressure. Consult a health care provider before starting ANDROENERGEN™ and monitor your blood pressure carefully if you have very low blood pressure. CoQ10 may also increase the effects of medications used to lower blood pressure. Consult a health care provider before starting ANDROENERGEN™ if you are taking medications to lower blood pressure.

Discuss your use of ANDROENERGEN™ with your health care provider if you are scheduled to have a surgery, as CoQ10's effects on blood pressure may interfere with blood pressure control during and after a surgery. Discontinue ANDROENERGEN™ use at least two weeks before your scheduled surgery.

CoQ10 may have interactions with medications, including, but not limited to, chemotherapeutic medications, antihypertensive drugs and Warfarin (Coumadin). If you are taking any prescription medications, consult your health care provider before starting supplementation with ANDROENERGEN™.

Should supplementation with ANDROENERGEN™ lead to unwanted side-effects, discontinue supplementation or consult with a healthcare provider immediately.

To report any adverse effects associated with ANDROENERGEN™ call 212-628-0851.

HOW SUPPLIED: ANDROENERGEN™ is uniquely packaged in individual blister sheets, each containing one week's supply of 21 soft gels in a 3 (daily 333 mg soft gels) by 7 (days in the week) layout. Each box contains 4 sheets (84 soft gels), a four-week supply.

STORAGE: ANDROENERGEN™ should be stored between 15°-30°C/59°-86°F). Protect from heat, light and moisture.
